

JÚLIA BOESING PONTICELLI

Software Engineer | Frontend | Vue.js • TypeScript • React

juliabp2000@gmail.com | linkedin.com/in/julia-boesing-ponticelli-9428b0101 | +55 (51) 99830-8148

Professional Summary

Software Engineer focused on Frontend with 8+ years of experience building web applications in enterprise environments. Strong experience with JavaScript, TypeScript, Vue.js, and React, working with frontend architecture, application modularization, reusable components, migrations, and continuous improvements in quality and performance. Currently working as a Front-End Developer III, with autonomy in complex deliveries and contributions to technical and architectural decisions. Building a career path focused on Software Engineering, Technical Leadership, and Software Architecture.

Professional Experience

FRONT-END DEVELOPER III | NELOGICA | Porto Alegre, Brazil

May 2025 – Present

- Promoted from Front-End Developer II to III in recognition of technical growth, autonomy, and impact on team deliveries.
- Develop and maintain web applications using Vue.js 3, TypeScript, React, and PHP.
- Work on complex products, contributing to frontend architecture, scalability, performance, and maintainable solutions.
- Own features end-to-end, from requirements understanding through production delivery.
- Collaborate with Product, UX/UI, and Backend teams to translate business requirements into efficient technical solutions.

FRONT-END DEVELOPER / SYSTEMS ANALYST III | MBOCHIP | Porto Alegre, Brazil

June 2023 – March 2025

- Developed and maintained a financial trading dashboard for equity operations using Vue.js and TypeScript.
- Built user interfaces focused on data visualization, real-time updates, performance, and code quality.
- Contributed to the continuous evolution of a product in an enterprise environment.

DEVELOPER – IXP INTERN | SAP | São Leopoldo, Brazil

May 2021 – May 2023

- Worked on innovation projects using SAP BTP, SAP HANA, SAP Analytics Cloud, SAP CAI, and SAP iRPA.
